### **Groundskeeping technician (Yerevan) — stable, formal employment, training provided**

MemoryCare — a new professional service for the care of family memorial sites — is assembling its field crew:

**Driver-technician** — AMD 400,000 net. Category B licence, 3+ years' driving experience, willing to work hands-on alongside the crew. **Care technicians (2 positions)** — AMD 300,000 net.

**The work:** cleaning and upkeep of memorial plots at Yerevan cemeteries to the company standard — monument washing with professional chemistry, grounds and plant care, and photo/video documentation of every job in a mobile app. Training and uniform provided. Six-day week, full time. Formal employment, salary paid twice monthly, quarterly quality bonus.

**Who we are looking for:** careful, physically fit, sober, respectful people. This is work at places of memory — we value calm and reliability over speed at any cost. Experience in landscaping, construction, or garden work is a plus, not a requirement.

Call/WhatsApp/Viber: [phone]. Interviews at our office; the trial day is paid and formally registered.

## Candidate assessment form (used by the CBDO at interview)

**Candidate:** name · phone · age · district · position sought. **Experience:** last two workplaces · landscaping/construction/garden experience · for drivers: licence class, years, violations in the last two years. **Attitude screening (decisive):** "Tell me how you understand this work" — listen

for respect for the subject, not just "cleaning." · "What would you do if relatives of the deceased were standing near the plot?" — correct direction: wait quietly / ask permission / reschedule. · "What would you do if you accidentally chipped a neighboring monument?" — correct: stop, photograph, call the coordinator; disqualifying: "fix it quietly and say nothing." **Reliability:** readiness for outdoor work year-round · health constraints · habits (asked directly) · two referee contacts. **Scoring (1-5):** neatness of appearance · calmness of speech · candor · motivation for stable work. **Decision path:** paid, formally registered trial day → two rehearsal visits under the Field Visit Protocol → crew admission.

## Internal terms (not for publication)

Salaries are net; gross payroll is computed by the accountant ( $\sim \times 1.35$ ). Quarterly quality bonus of up to 10% for a report rework rate below 5% and zero incidents. One-month probation. Bench: keep one or two vetted reserve candidates warm (monthly check-in call).
